MATHEMATICS ESSENTIAL - GENERAL: Provided by the school					
Rationale - We are listing a better quality lever arch file because stronger mechanism. This should be more resistant to breakage.					
The 5 subject organisers have proved unsuccessful in allowing students to properly organise and store their work in the vast					
majority of cases. Students should purchase a second lever arch file for use at home in which to archive old work. This should					
allow school bag weight to be minimised.					
***Students studying Maths, Geography, Physics and /or Chemistry courses will need a non-programmable Scientific Calculator.					
This is listed in the "General" section above.
